CARTA RECIBIDA  
EN SEVILLA EL  
7 NOVIEMBRE 1988  
Nº 488

3-XI-1988

Let us to introduce ourselves: Since the day 28, march, 1950, date on which we took contact with "Tierre," near De La Javie (France) we are among you. We know with security that this introduction disqualify us automatically. Forget it and listen our complaint.

It was committed a fraud, that we want to denounce to you, now that we don't have a juridic entity. A matter that is more regrettable being that certain members of the apostholic roman jerarchy and the totality of the believers of this denomination are innocents.

After the copy reported by Secondo Pis in 1898, the academic Ives Delage discovered that the blood stains of the SINDON reveal the sad truth. The marks still bleed after the careful washing to which the body was subjected. Neither the linen was banded. (PHAKIAI) as it was prescribed.

It starts a clever falsification on which it happens that somebody takes a piece of linen (twil of 4 in ear) manufactured in 1220 (Jaffa) and of bigger dimensions, cutted in 4x371 . 1'116". The mark was falsified using a effigy in cast iron overheated. (Pius X, Benedict XV, Pius XI, John XXIII and John Paul I were unaware of the process. We don't know if Pius XII was reported by A. Ottaviani). The fraudulent change of the linen was carried out in the year 1928. (Turin)

In 1985 His Holiness the Pope Karol Wojtyla is discreetly reported by means of a letter in code by the Cardinal Edward Cessidy from the small group of Cardinals and prelates that try desperately don't let arrive the matter to the public light.

On a awkward and hasty way at a meeting, the Pope, Joseph Tomko, Joseph Ratzinger and Anastasio Ballestrero decide to profit the new spechtrometry technic A. of M. The named Ballestrero is charged of send the samples. They knew too much the resultat of the Medieval date of the archaeological document so loved by all the christian communities. there is not mistake on the report of the experts about the samples.

The "Shroud of Turin Research Project" is, of course, innocent in spite of his wrong raise. And with them, it's also innocent the great quantity of faithfuls sadly deceived by "State reasons".
