Nationality
Switzerland

Men from OYAAGA

3-XI-1988

Let us to introduce ourselves: Since the day 28, march, 1950, date on wich we took contact with "Tierre", near De La Javie (France) we are among you. We know with security that this introduction disqualify us automatically. Forget it and listen our complaint.

It was committed a fraud, that we want to denounce to you, now that we don't have a jurdic entity. A matter that is more regrettable seing that certain members of the spotholic romen jerechy and the totality of the believers of this denomination are innocents.

After the copy reported by Secondo Pis in 1898, the scademic Ives Delege discovered that the blood stains of the SINDON reveal the sed truth. The marks still bleed after the careful washing to wich the body was subjected. Neither the linen was bandedged. (PHAKIAI) as it was prescribed.

It starts aclever falsification on wich it happens that somebody takes a piece of linen (twil of 4 in ear) manufactured in 1220 (Jaffa) and of bigger dimensions, cutted in 4*371 . 1'116. The mark was falsified using a effigy in cast iron overheated. (Pius X, Benedict XV, Pius XI, John XXIII and John Paul I were unaware of the process. We don't know if Pius XII was reported by A. Ottaviani). The fraudulent change of the linen was carried out in the year 1928. (Turin)

In 1985 His Holiness the Pope Karol Wojtyla is discreetly reported by means of a letter in code by the Cardinal Edward Cassidy from the small group of Cardinals and prelates that try desperately don't let arrive the matter to the public light.

On a awkward and hesty way at a meeting, the Pope, Joseph Tomko, Joseph Ratzinger and Anastasio Bellestrero decide to profit the new spechtrometry technic A. of M. The named Bellestrero is charged of send the samples. They knew too mutch the resultat of the Medieval date of the archaeological document so loved by all the christian communities. there is not mistake on the report of the experts about the samples.

The "Shroud of Turin Research Project" is, of course, innocent in spite of his wrong reise. And with them, it's also innocent the great quantity of faithfals sadly deceived by "State reasons".

(ESPAGNE)

Nº 488.- SE HA LLEVADO A CABO UNA FALSIFICACIÓN FRAUDULENTA
EN RELACIÓN CON LA SUPUESTA FAZ DE CRISTO ESTAMPADA EN LA SÁBANA
SANTA DE TURÍN.

Carta de UMMO recibida en Sevilla por Ignacio Darnaude Rojas-Marcos
el 7-11-1988, con matasellos de Aarburg, Suiza, fechado el
uno de Noviembre. Consta de una sola hoja, y luce el auténtico
sello de UMMO en color lila, así como la firma del autor en lo
que deben ser caracteres ummitas. Aparece redactada en un pésimo
inglés, plagado de toda suerte de errores idiomáticos. Ha sido
escrita en un lenguaje tan imperfecto y defestoso que el signifi-
cado de su contenido resulta ininteligible. Pareciera que
comunican que se ha cometido un fraude con la Sábana Santa, pero
no logran explicar con claridad quién, cómo, cuándo y por qué lo
ha realizado. La misiva es a todas luces absurda del principio
al fin. Texto nicial: "Men from OYAAGA Let us to introduce
ourselves:.....". Texto final: "...,it's also innocent the
great quantity of faithfuls sadly deceived by "State reasons".
Inédito.
