Inspirations of the Heart & Forty Day Mind Fast Soul Fast

A rare, compelling, and penetrating view into one of the great metaphysicians of our time, through the eyes of another master teacher, Walter Starcke. The portrait of Goldsmith the genius as well as person, inspires me to walk in absolute faith. This book will stand on many shelves as a classic teaching.

Alan Cohen, author — *I Had It All the Time*

This book reads like a novel – only its all true. The author's life reads like a legend, mixed with both the famous, even glamorous people and way of life he has experienced by practicing "The Infinite Way". No matter where you are in life, this book is a "must read."

Catherine Ponder, author — *Dynamic Laws of Prosperity*

A fascinating book that tells the story of how three amazing men were drawn together in a spiritual quest that has greatly influenced the lives of all of us who are involved in the evolution of consciousness.

It brought back many wonderful memories and made the Infinite Way more personal.
