Subject: REAL Rife Machine free video disclosure & free Plasma  
Ignition tutorial

- **THE REAL RIFE MACHINE EXPLANATION**
- **TESLA CHARGERS 2.512-EX**
- **(FREE) FULL TUTORIAL OF INSTALLING A PLASMA IGNITION ON AN OLDER CAR!**

Hi Jose,

As promised, here is the video explanation of what a REAL Rife Machine is supposed to be about. You're also getting a FREE tutorial on the plasma ignition system. If you enjoy these kinds of videos, make sure to give them LIKE in YouTube and share these with your friends.

### **(FREE) THE REAL RIFE MACHINE EXPLANATION**

The Rife Machine is a very popular subject but unfortunately, most of the information available is misinformation based on misunderstandings and nearly all the devices that are available are all fake.

Many of these machines output a single frequency, they're in the audio range and based on some indisputable facts that are documented since the time of Rife, through Joseph Crane and to John Bedini, they really have nothing at all to do with what Rife was actually doing.

John Bedini worked with Joseph Crane (Rife's assistant) and it was Crane that started to use a common frequency generator thinking he was replicating what Rife was doing but he was not.

Watch the YouTube video on this page for a basic explanation of what makes a REAL Rife Machine and then make a decision if you want to get your hands on one or not while they're available -

## **TESLA CHARGERS 2.512-EX**

If you saw the video we sent out a couple days ago, you learned what this beast of a charger/rejuvenator can do. The video is linked to on the page below if you haven't seen it. The price has been discounted for a long time and we're going to finally raise the prices soon.

If you want to take advantage of the discount, go here while you can:

<http://teslachargers.com/products/battery-chargers-rejuvenators/2-5-amp-12-volt-lead-acid-battery-charger-rejuvenator-120-240-volts/>

## **(FREE) FULL TUTORIAL OF INSTALLING A PLASMA IGNITION ON AN OLDER CAR!**

Here is a video tutorial on how I installed my patented plasma ignition system on a 1977 Datsun 620 pickup. This should be part of the paid book/video presentation but here you go:

<http://emediapress.com/2016/10/06/plasma-ignition-tutorial/>

If you do want to get more information on what the plasma ignition is really about, more than you ever wanted to know, go here:

<http://www.emediapress.com/go.php?offer=&pid=12>

Sincerely,  
A & P
