What is a Medium?

According to medium, Peggy Barnes, author of The Questionnaire, "A medium is one whose organism is sensitive to vibrations from the Spirit World and through whose instrumentality, intelligence in that world, are able to convey messages and produce phenomena."

Harry Edwards, medium and healer says, "Mediumship has a purpose. And that is, to demonstrate to man/woman that they are not just a physical being, but that they are a part spirit that this life is but an apprenticeship for the greater and fuller life that commences with the physical death. That through this knowledge, mankind will receive the impetus to adopt an enlightened code of values, that in its evolvment will outlaw war, poverty, and the other ignoble trends in our present way of life. Thus the true motive that inspires mediumship is a spiritual one."
