Topics Featured at a Global Science Congress...

Tired of the same old pap from the establishment media?

What are those rascals in the secret government up to now?

What are the latest crop circles revealing?

How close are we to anti-gravity/free energy?

Planning a vacation to the Hollow Earth?

Looking for the latest word on electro-medicine?

Maybe spiritual healing is more your style.

How about uplifting words of transcendence and hope ...

Whatever it is you seek...

there's a good probability that we have it here for you.

We can't guarantee to have all the answers...

but we will promise to expand your mind to new limits!!!

History of Global Sciences

The *Global Sciences* organization was founded in 1983 by Dean Stonier (photo left) with the intent to promote the understanding and integration of body, mind and spirit as well as the mysteries which surround us in daily life such as UFO's, crop circles, spiritual growth and ascension, alternative healing modalities, suppressed technologies, mind control, shadow government/one-world conspiracies.

By 1997, **globalsciences.com** (now defunct) was created. Local meetings were held every month in the Denver area in addition to two national conferences each year, typically Florida in the Winter and Denver in Summer. Dedicated to bringing you the latest information which is crucial during these exciting times here on planet Earth, these congresses were considered the premier events of their kind!

Dean Stonier passed away two days after the 2001 August Global Sciences Conference. After a very successful conference, he was found by his wife suffering from an "apparent" heart attack and rushed to the hospital. He never made a recovery and was taken off his breathing machine four days later. Although others tried to carry on the tradition, Dean's passing was a mortal blow to the organization. *Global Sciences* faded away after the 2002 *Global Wings Congress*.

The **Global Sciences Congress Archival Project** is a joint effort of **TeslaTech** and **Lost Arts Media** to digitize the recordings of the *Global Sciences Congress*. We support a responsible person's natural right to research for themselves and are making all recordings (both audio and video) available for research and archival purposes only. In no way are the recordings to be taken as medical or legal advice. **Distribution of this material does not constitute an endorsement by TeslaTech, Inc, or Lost Arts Media.** The *Global Sciences Congress* was a forum of new, unusual, and sometimes forbidden ideas. The burden of proof (or disproof) is upon the author and his supporters or opponents.
